

Menarini Stemline UK- Patient Organisation Support 2023 Report

The following details Menarini Stemline UK Ltd's payments to UK patient organisations in 2023.

Description of funding categories

Grants are given unconditionally to support medical/scientific research, education, and patient advocacy activities with no obligation for the recipient to provide anything in return.

Speaker engagements can include testimonials, interviews, or speaking at events.

Consultancy activities include participation in advisory boards, patient councils, and focus groups.

Services include conducting and/or running activities such as surveys or interviews on the company's behalf.

Sponsorship includes funding to a patient organisation to run events or support activities in areas in which Menarini Stemline has a presence/interest. Sponsorships involve the provision of associated benefits from the patient organisation to the company in exchange for support.

| Funding organisation | Country of patient organisation | Name of patient organisation | Support category | Support type | Disease area | Value | Currency |
